## RefugEase

Building Futures After Escaping Conflict

**LOCATION:** Tunbridge Wells  
**SIZE:** 830 sq ft  
**USAGE:** Charitable Retail Store

### The Charity

Formed in 2015, RefugEase was born from an immediate and direct response to the media coverage of Syrian 3 year old Alan Kurdi, who on 2nd September 2015 tragically drowned in the Mediterranean sea as his family were trying to reach Europe.

RefugEase is a small 'n' mighty UK-based charity that raises funds for emergency humanitarian aid, crisis awareness and education.

### Premises Update

We are delighted to have assisted RefugEase in acquiring a retail store in Tunbridge Wells which has proved to be very popular and has raised vital funds for this fantastic cause.

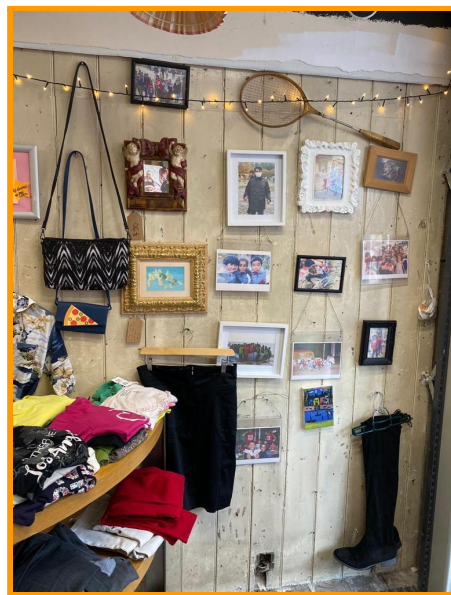

The property was taken on with a 30 day notice period and RefugEase are covering all business rates, utilities and day to day management of the building.

### Community Spaces

Community Spaces work with a large network of charities across the UK enabling them to utilise vacant space for their good cause.

Community Spaces alongside the Department for Work and Pensions also assist start-up businesses to find affordable space, enabling them to trial their business plan and build a customer base before taking on longer term leases and increased overheads.

## Zaa'tari Kids Village

We work closely with our partners at Acting For Change International to run an education centre for refugee children in Zaa'tari Village, Jordan. Our focus is on opening the primary school full-time, and building permanent structures.

## Humanitarian aid.

Serving refugee camps and people in transit fleeing conflict by providing life-saving aid purchased locally, with a focus on Jordan, Turkey, Greek Islands, and France.

## Aid Deliveries

In October 2015 we took our first aid delivery out to the Balkans. Since then we've collected and delivered aid to countless places including Greece, Lebanon, Jordan and Turkey. Recently, they've become a bit more tricky to arrange, but we aren't giving up! Often opportunities spring up last minute so keep a close eye on our social media pages for updates.

## Education & Empowerment.

Offering child refugees in Jordan an education they can build a future on, and upskilling adult refugees (in the UK and abroad) into employment to empower them long-term.

## School Visits

We visit schools up and down the country to educate students about the refugee crisis. Our lesson plans suit every age group, ensuring sensitivity to every belief system. Please get in touch for more information.

## Awareness.

Teaching UK children about the world's bursting refugee crisis: why it's happened, what is happening, and how they can help.
